

REDCO's

QUALITY POLICY

REDCO produces high quality engineered rubber products.

*We provide the best **Quality, Service and Value** throughout our molded rubber & machining processes. We achieve this by meeting all customer requirements, maintaining, and ensuring continuous improvements throughout our quality management system. REDCO is committed to the philosophy that it is the responsibility of every employee, supervisor, and member of our management team to maintain REDCO's quality standards and to ensure that continuous improvements are achieved through the combined effort of our employees.*
